

AI-Powered GPRC

Built for the Enterprise.

Transform how you manage governance, performance, risk, and compliance – with AI embedded across your solution.

TRUSTED ACROSS

Banking · Government · Energy · Healthcare · Insurance

Risk Intelligence in Seconds

AI correlates your risk register with real-time external signals – a process that used to take analysts hours.

5-10 Second Screening

Instant due diligence with AI-driven screening across sanctions, adverse media, and risk indicators for any third party.

Deploy in Days, Not Months

2,000+ AI-assisted configuration operations completed in 7 days – dashboards, workflows, and data models in natural language.

Key Benefits

AI embedded across your enterprise:

AI Embedded – Not Added On

Fully integrated into your GRC environment, delivering intelligence in context across risk, compliance, audit, and controls.

Natural Language Interaction

Ask questions, generate reports, and execute workflows using conversational AI.

Faster Time-to-Value

Go from setup to impact in days – with AI accelerating configuration, data modeling, and deployment across your platform.

Accelerate Every Workflow

Automate risk assessments, audit procedures, reporting, and remediation planning.

Context-Aware Intelligence

AI understands your organization's risks, controls, policies, and regulatory mappings – delivering insights that are relevant, not generic.

From Reactive to Predictive

Identify risks earlier, detect anomalies, and gain forward-looking insights with AI-powered analysis.

Auditable, Controlled AI

Maintain full oversight of AI-driven outputs with built-in governance, auditability, and human-in-the-loop decision support.
