Corporater Key Capabilities

Solutions built on Corporater Business Management Platform come pre-configured with industry best practice frameworks, templates, and functionalities.

Business Framework Support

Establish, visualize, and align goals, objectives, and thresholds across the organization according to well-known business frameworks.

Flexible Configuration

Create a digital twin of your organization. Corporater features an agile, flexible configuration environment managed directly by end users.

Powerful Reports

Generate comprehensive reports in a variety of popular formats, including Word, Excel, PPT, and PDF. Include data visualizations directly from the system.

Workflow Management

Automate your business processes, assign tasks, conduct assessments, schedule meetings, provide approvals, and set up custom notifications.

BI & Analytics

Connect, collect, organize, visualize, and analyze your data in business context to uncover actionable insights and make smarter, data-driven decisions.

Data Integration

Have a single source of truth. Corporater comes with a powerful data integration engine built to integrate large amounts of data from a wide range of sources.

Data Visualization

Visualize your data story with custom-colored charts, graphs, risk heat maps, strategy maps, and more. Add your brand colors and design elements.

Custom Dashboards

Go beyond traditional dashboards. Configure custom business dashboards to display relevant information, KPIs, and other metrics. No coding needed.

Access Control

Assign custom user access based on user role and control user permissions to manage content visibility and access to specific dashboards and features.

Single Sign-on (SSO)

Securely authenticate users with single sign-on (SSO). SSO allows users to log in with a single set of credentials across multiple platforms.

Meeting Management

Set up meeting invites, create agendas, tag projects to be reviewed, add notes and attachments, and send out meeting invites to attendees.

Alerts & Notifications

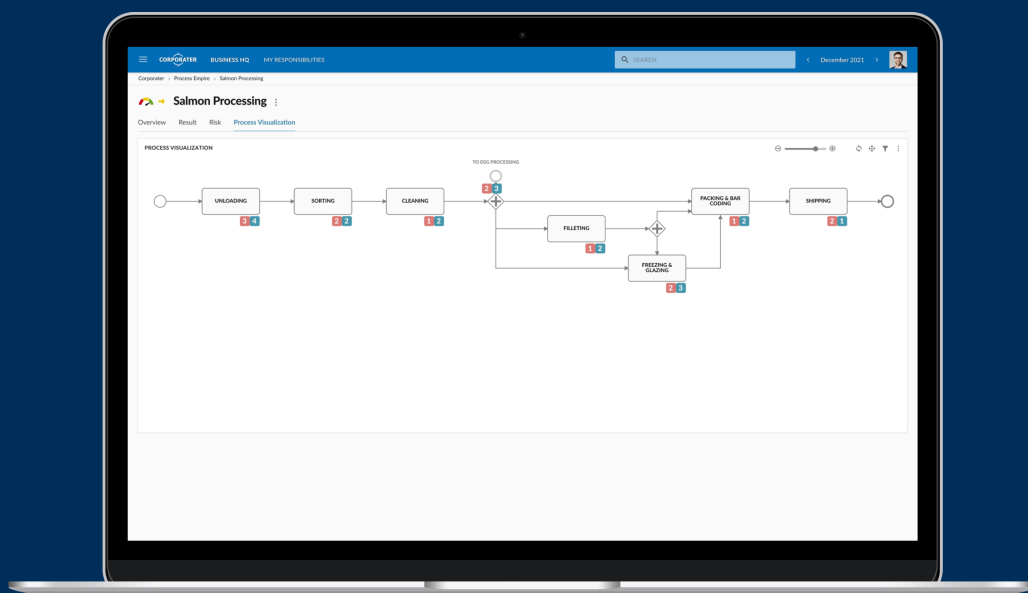

Create custom alerts to notify key stakeholders when a KPI moves above a specified threshold, when a goal is reached, or when a new issue arises.
