

Data Privacy
Management

Strengthen your data privacy protection,
ensure compliance, and build customer trust.

Corporater is recognized by Gartner®
as a representative vendor in 2021 Gartner
“Market Guide for Technologies Supporting
a Digital Twin of an Organization”

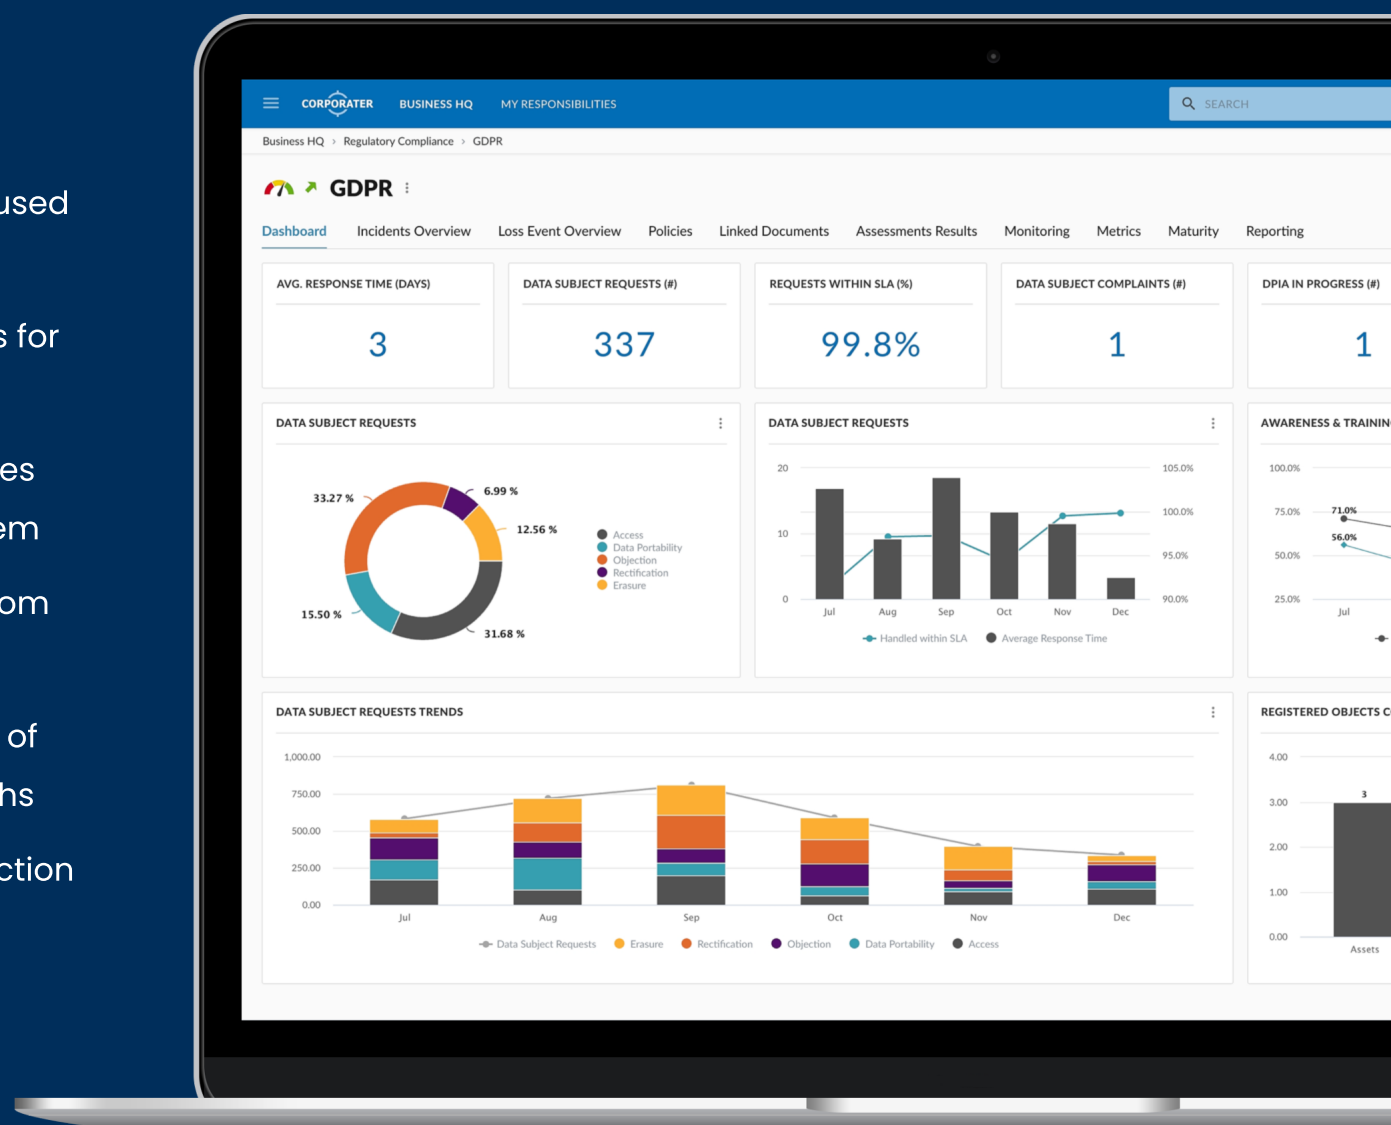

Data Privacy Management

Establish a solid data privacy program to keep your data and information protected, mitigate the risk of data loss and security breaches, and ensure compliance with regulatory requirements and audits.

Corporater Data Privacy Management software is a digital tool that enables organizations to establish a solid data privacy governance — manage data privacy policies and procedures, safeguard sensitive data, mitigate risks associated with data breach, and ensure compliance with privacy regulations such as GDPR, CCPA, POPIA, HIPAA, and PCI-DSS. The solution comes with features and capabilities to make your data privacy program simple, scalable, and efficient. Built on Corporater Business Management Platform, the solution provides organizations with a central hub for the management of data governance, risk, compliance, GRC, performance, business continuity, and internal audit.

Solution Highlights

- Have a complete overview of how data is used throughout your organization
- Document your processes and procedures for how data is used, stored, and accessed
- Create risk profiles and data privacy policies and monitor the usage of data against them
- Model a complete data privacy lifecycle from discovery to remediation
- Automate the discovery and classification of data by integrating with discovery RegTechs
- Conduct risk assessments and data protection impact assessments
- Create a register of company policies and procedures regarding data privacy

Unifying your data into a single source of truth, keeping it protected from unauthorized access, and making it accessible to those who need it, when they need it, leads to improved communication, streamlined operations, and better decision making.

Solution Key Capabilities

Corporater Data Privacy Management solution comes pre-configured with best practice frameworks, templates, and functionalities needed by today’s modern organizations.

Custom Dashboards

Go beyond traditional dashboards. Configure custom business dashboards to display relevant information, KPIs, and other metrics. No coding needed.

Flexible Configuration

Create a digital twin of your organization. Corporater features an agile, flexible configuration environment managed directly by end users.

Powerful Reports

Generate comprehensive reports in a variety of popular formats, including Word, Excel, PPT, and PDF. Include data visualizations directly from the system.

Automated Workflows

Automate your business processes and workflows to streamline operations, increase accountability, and ensure adherence to your procedures.

Data Integration

Have a single source of truth. Corporater comes with a powerful data integration engine built to integrate large amounts of data from a wide range of sources.

Data Visualization

Visualize your data story with custom-colored charts, graphs, risk heat maps, strategy maps, and more. Add your brand colors and design elements.

Business Framework Support

Establish, visualize, and align goals, objectives, and thresholds across the organization according to well-known business frameworks.

Risk Planning

Keep your organization prepared for the unexpected with Corporater risk planning and early risk identification.

Incident Management

Establish and automate incident management process to minimize adverse impact on your organization. Monitor, report, and resolve incidents.

Alerts & Notifications

Create custom alerts to notify key stakeholders when a KPI moves above a specified threshold, when a goal is reached, or when a new issue arises.

Access Control

Assign custom user access based on user role and control user permissions to manage content visibility and access to specific dashboards and features.

Single Sign-on (SSO)

Securely authenticate users with single sign-on (SSO). SSO allows users to log in with a single set of credentials across multiple platforms.
