

Business Management Platform (BMP)

For effective management of GPRC

Keeping all aspects of your business connected

Corporater Business Management Platform (BMP) is an enterprise-grade software that enables organizations to effectively manage various areas of their business with a single tool. Our platform is used by medium and large organizations around the world to establish corporate governance, measure performance, manage risk, demonstrate compliance, and drive business outcomes.

Corporater solutions help organizations eliminate departmental silos and drive efficiency by automating cross-departmental processes all within one system. All Corporater solutions can be seamlessly integrated with one another allowing you to start in one area and scale up later as your organization's needs evolve.

Corporater Business Management Platform

Corporater BMP provides the scalability, security, and features needed to meet the demands of today's modern organizations. It enables organizations to make the shift from working in inefficient siloes to working as a unified business unit.

Our method for solving business challenges is based on accepting exceptions as the rule. At Corporater we know that no two organizations are alike, which is why we built our platform as a highly configurable software that provides adaptable and flexible solutions tailored to organizations' specific needs. We listen and partner with our customers to understand their goals and objectives, and provide them with a solution that fits their specific requirements.

By introducing Corporater, organizations are able to modernize their operations and drive a culture of transparency, accountability, and awareness.

Functional Features

Corporater solutions come standard with the following features.

Custom Dashboards

Create custom dashboards to display relevant information and assignments based on organizational level.

Data Integration

Pull all your data together from multiple sources to have a complete overview of your business.

Beyond BI & Analytics

Drive business outcomes - uncover actionable insights, review them in business context, develop a plan, and put the plan into action.

Powerful Reports

Generate comprehensive reports in a variety of popular formats, including Word, Excel, and PDF.

Intuitive User Interface

Enjoy intuitive user interface and navigation - making it easy for users to access the information they need.

Responsive Design

Corporater solutions adapt to any device - desktop, tablet, smartphone, so you can work on the go. All you need is internet access.

Alerts & Notifications

Set up automatic notifications to communicate assignments, responsibilities, approval status, and overdue tasks.

Roles & Permissions

Assign user permissions to manage content visibility and access to specific software features.

Automated Workflows

Set up automated workflows to streamline operations and ensure adherence to your processes.

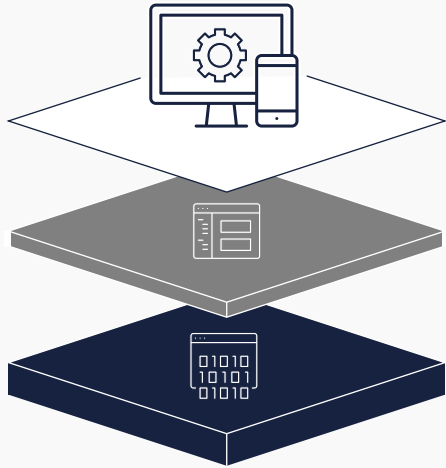

Data Visualization

Visualize your data story with charts, graphs, and strategy maps. Apply your brand's colors and theme.

Accelerated Implementation

All Corporater GPRC solutions are built as accelerators – pre-configured solutions – that can be used straight out-of-the-box allowing you to get up and running quickly.

Signature Solution

Make it your own! You can easily configure your solution with Corporater Configuration Studio. No coding needed.

- Create custom dashboards for all levels in your organization
- Map out your business units, entities, and departments
- Aggregate your data from multiple sources
- Define custom KPIs, KRIs, and other key metrics
- Automate process workflows and procedures
- Add your brand colors, graphics, and background images
- Set up alerts, reminders, and notifications
- Control user permissions

Corporater Accelerator

Accelerator is a solution that comes pre-configured with best practice frameworks, processes, workflows, tools, and example dashboards for your type of organization. Using an accelerator as a base for your solution reduces cost and implementation time.

Corporater BMP

Corporater BMP is a next generation software built for tomorrow's possibilities. Robust, secure, and flexible.

Technical Features

Corporater platform is built as a truly configurable system with flexible hosting options. All Corporater solutions can be set up precisely to suit your business model, and continuously modified directly by end users as your needs evolve.

Cloud-hosted

Corporater is a browser-based software hosted in the cloud. If you'd rather host it on premises, you can do that too.

Safe & Secure

Your security is our top priority. Corporater is verified by Veracode and offers the highest level of security and protection for your data available today.

Configurable

All Corporater solutions are 100% configurable by end users allowing you to make ongoing modifications as your organization's needs evolve.

Scalable

Scale without slowing down. Corporater solutions are scalable with rapid expansion capabilities allowing your organization to expand and grow.

Compatible

Corporater solutions are compatible with most 3rd party tools and applications including SQL, Excel sources, BI tools, and various web services.
